## FULL STACK PROJECTS

Psico-Health

Repository: <https://github.com/tomasld13/PF-psicoApp>

Deploy: <https://psico-app.vercel.app/>

- Development of a SPA with React, Redux Toolkit, NodeJs, Express, Sequelize, PostgreSQL, Styled-components, JWT, Firebase, MercadoPago, Tailwind, ChakraUI, DatePicker, etc.
- It is an app that connects psychology professionals and potential clients who need their services. Both psychologists and clients can register and modify their profile; customers can make an appointment, chat live and psychologists can generate a service schedule, also designed for administrator mode

Pokemon-project (PokemonAPI)

Repository: <https://github.com/Jhoskart/Project-Pokemon>

Deploy: <https://project-pokemon-ten.vercel.app/>

- Development of a SPA with React, Redux, Node, Express, Sequelize, PostgreSQL, Styled-components
- It is an app that allows you to see different pokemons and interact with them, seeing their details, filtering them or even creating your own pokemon through a controlled form

## WEB APPS

Project-Movies (OmdbAPI)

Repository: <https://github.com/Jhoskart/project-movies>

- Development of a SPA with React and Redux

This app allows:

- Search movies and list them.
- Being able to see all the details of a particular movie.
- Being able to add the movies to your favorites list.
- Being able to remove movies from your favorites list.

### Project-Weather (OpenWeatherAPI)

Repository: <https://github.com/Jhoskart/Project-Weather>

- Desarrollo de una SPA con React

#### This app allows:

- Search for a city and see its weather.
- Being able to see all the details of a particular city.
- Being able to eliminate any city
