EXPERIENCE

Henry Bootcamp Assistant (TA) for Full-Stack Development Students

May 2022 - Present

- Coordinate a group of students to achieve integration to the study group.
- Guide students in the first steps of the course
- Assist to solve exercises and promote group collaboration (Pair Programming)
- Propose ideas to improve the Bootcamp processes

PROJECTS

Psicoapp

Henry, Santiago, Chile

Jul. 2022

- Development of a SPA with React, Redux Toolkit, NodeJs, Express, Sequelize, PostgreSQL, Styled-components, JWT, Firebase, MercadoPago, Tailwind, ChakraUI, DatePicker, etc..
- I was in charge as a Fullstack developer, in the backend I developed the models and the tables of the database together with the routes in express to take them to the front, I also developed the payment gateway with mercadopago and in the same way I was in the frontend creating components, authentication, filters and ordering

Pokemon Project

Henry, Santiago, Chile

May. 2022

- Development of a SPA with React, Redux, Node, Express, Sequelize, PostgreSQL, Styled-components
- I developed this app starting with the database and its models with sequelize, and I took care that each express route had its respective controller so that they would work in the front requests, later I took care of the design and the frontend components
